

JPC's Waterproof series connector products are available to meet Industry 4.0 automation control equipment. It can be used at Signal Transmission, Power, Sensor and Cable Connection.

★ **Signal & Power** ★ **customized service (Connector & Cable)**

★ **Small-Volume/Multiple-Types of Products** ★ **100% Made In Taiwan**

M8/M12 circular series

PRODUCT FEATURE

1. Shell Material: Material stability is not easy to deform.
2. Insulating Material: Fireproof, High temperature and pressure resistant.
3. Surface Treatment: High-tech surface with special matte finish, High-quality texture without reflection.
4. Conductor(PIN): Well contact and Low impedance, Low temperature, Flat PIN, Stable impedance, Not easy to deteriorate.
5. Cable Glands: Professional design and Tight fit, Waterproof.

APPLICATION/MARKET

1. Motors, Power, Electronics
2. Mechanical, Medical Equipment
3. MRT, Automobiles, Electric Vehicles
4. Communication Equipment, Military

INTERNATIONAL Q/C CERTIFICATION

- AS 9100D
ISO/TS 16949
ISO 14001
ISO 9001
